

# THREE CARD POKER RULES

Three Card Poker offers two games in one.  
Players may bet on PAIR PLUS and/or ANTE.

## FOUR WAYS TO WIN

Once players have placed their bets on either PAIR PLUS or ANTE or both, three cards will be dealt to each player and to the dealer.

A bet on PAIR PLUS will be paid if the player has a pair or better, irrespective of the value of the dealer's hand. If the player does not have a pair or better the bet loses, again irrespective of the dealer's hand.

**PAIR PLUS bets will be paid as follows:**

PAIR	1 to 1
FLUSH	4 to 1
STRAIGHT	6 to 1
THREE OF A KIND	33 to 1
STRAIGHT FLUSH	35 to 1

Players who have placed a bet on ANTE must decide once they have seen their cards whether they are going to play or fold. If they fold, the ANTE bet will lose. If the player decides to play an amount equal to the ANTE bet must be placed in the PLAY box.

## HAND RANKS IN ASCENDING ORDER

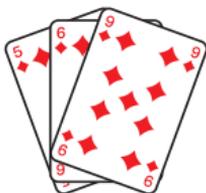

**QUEEN HIGH**

**ONE PAIR**

Two cards of the same value

**FLUSH**

Three cards of the same suit

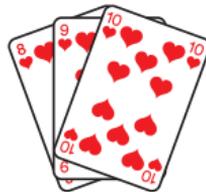

**STRAIGHT**

Three cards of consecutive values but not of the same suit

**THREE OF A KIND**

Three cards of the same value

**STRAIGHT FLUSH**

Three cards of consecutive values of the same suit

## NOTES:

3-2-Ace is lowest STRAIGHT and STRAIGHT FLUSH.

The dealer will qualify with QUEEN HIGH.

If the dealer qualifies and has a lower value hand than the player, both ANTE and PLAY bets will win and will be paid 1 to 1.

If the dealer qualifies and has a higher value hand than the player, both ANTE and PLAY bets will lose.

If the dealer qualifies and has a hand equal to the player, both ANTE and PLAY bets will be a stand off. If the dealer does not qualify, the ANTE bet is paid 1 to 1 and the PLAY bet stands.

Bets on ANTE will be paid a bonus if the player has a straight or better, irrespective of the value of the dealer's hand. ANTE BONUS bets will be paid as follows:

<b>STRAIGHT</b>	<b>1 to 1</b>
<b>THREE OF A KIND</b>	<b>4 to 1</b>
<b>STRAIGHT FLUSH</b>	<b>5 to 1</b>

Players may examine their hands as soon as the dealer has completed dealing the hand.

A misdeal will be called if an incorrect number of cards is dealt to any player or the dealer, or if there is ambiguity as to which card belongs to which hand.

Players are not permitted to communicate any information regarding their hand to another person.

Variation from this rule may result in the hand being declared void.

Players are not permitted to play on another player's box.

PLAYERS MUST AT ALL TIMES KEEP THEIR CARDS ABOVE THE TABLE IN FULL VIEW OF THE DEALER.

## PRIME BETS

The Prime Bet is a side bet played on Three Card Poker. The Prime Bet is not played against the dealer. (The customer may only place a PRIME wager alongside their own Ante or Pair Plus bet). The customer must bet on Ante or Pair Plus or both to play the Prime Bet. The Prime Bet must be placed before any cards are dealt. When the customer has any 3 cards of same colour, the Prime Bet is paid 3 – 1.

When the customer has any 3 cards of the same colour and the dealer has any 3 cards of the same colour as the customer, the Prime Bet is paid 4 – 1. All 6 cards must be the same colour.

The Progressive jackpot will be paid last in sequence, after the pair plus and the prime.

## PROGRESSIVE BETS

In addition to the basic game detailed above, players may place an optional side wager on the "Progressive Jackpot". This is a wager that the player's hand will hit one of the rankings below, irrespective of whether it also beats the dealer and / or whether the dealer's hand qualifies.

Winning progressive side bet hands are as follows:-

**JACKPOT WINNER**  
**MINI ROYAL (Diamonds)**

**MINI ROYAL (Other)**

**STRAIGHT FLUSH**

**THREE OF A KIND**

If the player's hand does not hit one of the above rankings, the progressive wager will lose.

The pay table and other information regarding the progressive jackpot is displayed on the jackpot display, which is located on each Three Card Poker table.
